What is the Healing of the Family Tree ?

The Generational Healing Mass is meant to bring the healing Blood of Jesus into our **generational lines** to heal any spiritual division, physical and mental illness **passed down** through the generations of your family.

Lamentations 5:7 states: "Our forefathers have sinned and are now dead, and we bear their punishment."

The Bible teaches of **sin's counterpart** and of the effects of sin, punishment - in the form of suffering, illness and the inclination toward sinful habits, addictions, etc., **can be inherited**.

The Healing of the Family Tree Mass aims to lift this **punishment and bondage** of body, mind or spirit; and this is done through The Healing Power of the Eucharist.
